## MAXITRAAX TRAILER AIR SUSPENSION SIDE LIFT KIT

No: 97114-012

Date: January 2004

Revision: A

Hendrickson are pleased to announce a suspension Side Lift Kit to suit the Maxitraax drum brake and disc brake models.

Part #	97064-003	Lift Kit
	S-27040-1L	Pedestal
	S-27040-1R	Pedestal

The Side Lift Kit is available for production or as a retrofit to existing trailers in operation with Maxitraax suspensions.

### Valves

The Side Lift Kit will also require the Air Lift Valve, either:

989750-004	Auto Lower / Manual Raise
98975-005	Auto Lower / Auto Raise

### Travel Height

If installing to older trailers the spacer above the air spring will need to be removed to increase lift travel.

Current production requires the pedestal spacer below the air spring to be replaced.

Attached are the installation drawings.
