HAS 400 TRUCK AIR SUSPENSION MAIN SUPPORT MEMBER IMPROVEMENT

No: 49441-128 (TRUCK AUS-004)
Subject: *Product Update*
Date: September 1996 **Revision:** A

SUPERSEDED MAIN SUPPORT MEMBER

NEW MAIN SUPPORT MEMBER

Description

As part of our continuous product improvement program, Hendrickson has increased the thickness of the Main Support Member on the HAS 400 air suspension, at frame hanger end. The Main Support Main has increased from 13.5/16.0mm to 17.5/20.0mm as shown above.

This change will not effect the installation of the suspension in any way. In service, the two Main Support Members are interchangeable.

This improvement is intended to increase Main Support Member durability.

If any further installation detail or assistance is required, contact the Hendrickson Engineering Department on (03) 9767 3400.

WARNING - HENDRICKSON REMINDS USERS TO ADHERE TO THE PUBLISHED CAPACITY RATINGS FOR SUSPENSIONS. DO NOT MODIFY PARTS OTHER THAN OUTLINED IN THIS PUBLICATION.

USE OF A MODIFIED OR SUBSTITUTE PART IS NOT RECOMMENDED BECAUSE THE PART MAY NOT MEET HENDRICKSON'S SPECIFICATIONS, WHICH COULD LEAD TO FAILURE OF THE PART, LOSS OF VEHICLE CONTROL AND PERSONAL INJURY.
