TOUGHLIFT® Lifiable Pusher or Tag Suspension

TOUGHLIFT® with HAS™ or PRIMAAX® - the ideal combination

Hendrickson TOUGHLIFT® lifiable suspension provides an economical load sharing suspension system when matched with the Hendrickson HAS™ or PRIMAAX® drive-axle suspensions.

Installed with an auto raise / lower air valve, the lift axle will raise or lower automatically when a predetermined load is put on or taken off the vehicle. This all happens without the drivers' involvement.

The TOUGHLIFT offers a great opportunity to increase tyre life and reduce maintenance costs, it is also lightweight without compromising durability. With up to 150 mm of axle lift, the tyres have ample clearance when raised.

The TOUGHLIFT is designed for installation of the 125 mm round axle and can be coupled with a drop axle for pusher location or straight axle for the tag application.

Features

- Lifiable up to 150 mm
- Helps extend replacement and service intervals for tyres
- Allows more payload capacity
- Includes Hendrickson patented[†] TRI-FUNCTIONAL® bushings
- Easy axle alignment with QUIK-ALIGN® system (no welding required)
- Axle rating up to 10 tonne
- Available as a pusher or tag axle configuration

[†] This product is covered by at least one or more U.S. and / or foreign patents and / or pending U.S. and / or foreign patent applications. See Hendrickson for details.

Hendrickson Genuine Parts are the same quality components installed in Hendrickson original equipment suspensions — consisting of the same design, construction, performance and durability. There's only one way to maintain and protect your suspension's original performance. Ask for the name that is synonymous with the finest manufactured suspensions in the world.

Extended Warranty options available at www.hendrickson.com.au

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.

All applications must comply with applicable Hendrickson specifications and must be approved by the respective vehicle manufacturer with the vehicle in its original, as-built configuration. Contact Hendrickson for additional details regarding specifications, applications, capacities, and operation, service and maintenance instructions.
