

- Versatile product design
- Proven durability
- Helps meet applicable P.B.S. steerable axle regulations
- Available with TIREMAAX® tyre inflation system and HXL7®

#### **Versatile Product Design**

CONNEX™ ST trailer steerable suspension system combines Hendrickson's proven HT230 suspension with its innovative steer axle technology and UBL™ UNDER BEAM LIFT™ system to help deliver maximised operating efficiency. The steerable model is ideal for multi-axle trailer applications.

#### **Steerable Regulations**

Regulations to reduce wear and tear on infrastructure continue to permeate the industry.

The need for a reliable and adaptable steerable solution is more important than ever. The CONNEX ST steerable suspension helps operators meet applicable regulatory needs for steerable axle applications, including Australian Performance Based Standards (P.B.S.).

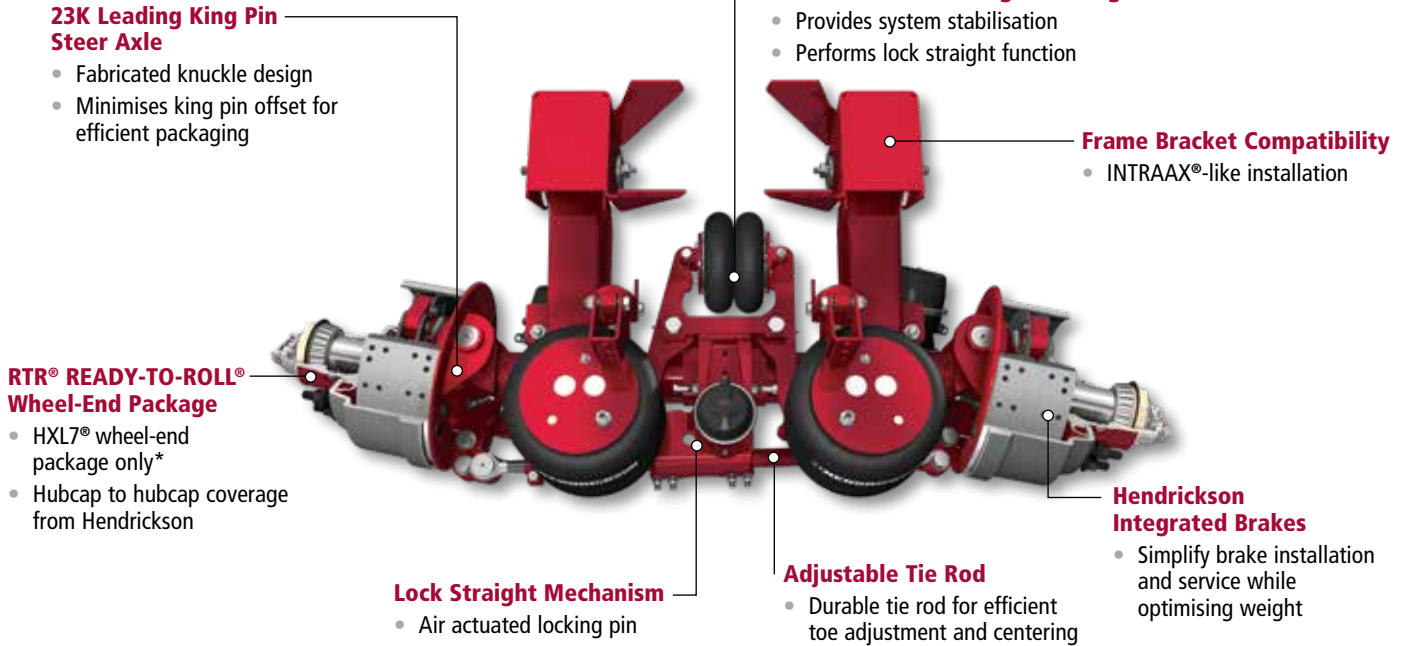

#### **Proven Durability**

Thoroughly tested in Hendrickson's world-class research and development test lab as well as various road and durability track testing, the CONNEX ST steerable suspension stands up to rigorous demands in the field.

CONNEX ST trailer steerable suspension system is another example of the durability and quality that fleets and OEMs expect from Hendrickson – a recognised leader in the industry.
